# Effect of Two-Meson Cut on $Y_1^*(1385)$ Production in $\pi \mathcal{N}$ Interaction.

C. P. SINGH and B. K. AGARWAL

*Physics Department, Allahabad University - Allahabad*

In the above letter, please read as follows:

1) page 759 (line 5):

For $\cos \theta' = \cos \theta \cos \theta'' + \sin \theta \sin \theta''$ read $\cos \theta' = 1$.

2) page 759 (line 22):

For $g_{K^*K\pi}^2/4\pi = 2.25$ read $g_{K^*K\pi}^2/4\pi = 0.75$.

3) In Fig. 4 divide the right ordinate scale by a factor of $\sim 6$.
