

## CORRECTION

A computer problem resulted in the misprinting of FIGURE 1 in the Huaman, et al. article (May-June, 2000) issue of the AJPR. The correct figure replaces the figure appearing on page 188, Vol. 77, Number 3.

**FIGURE 1.** Frequency distribution (%) of predominant tuber skin colors in whole and core collection of *S. tuberosum* subsp. *andigena*. Table 3 lists the color codes for this characteristic.
