

GROWING ALFALFA SUCCESSFULLY

WHAT A new motion picture, "Growing Alfalfa Successfully," is now available for your showing. Produced by the American Potash Institute in close cooperation with official agricultural specialists, the new 16mm color movie is 25 minutes long and features special time-lapse photography to show how the plant grows and feeds. From the main movie, two 16mm shorts have been developed—"Alfalfa, Queen of the Forages" and "Good Alfalfa Requires Good Fertility"—which run 10 minutes each and contain the same information as the main movie in two different condensed versions.

HOW Any one of the three movies can be booked free of charge by contacting Department BC, American Potash Institute, 1102 16th St., N. W., Washington 6, D. C., giving a date and alternate desired for showing, as well as name and organization represented.
