

The 2nd edition of the book on methodology on clinical examination of Ear, Nose & Throat is a well written book in lucid language. The line-drawings and the clinical photographs will be very suitable for the students' understanding of the methodology of examination. The book will be useful for the undergraduate students & trainees in their clinical examination & practice.

**Proceedings of the 8th N.E.S. Meeting** held at Bombay in Nov. 1981. Price : 95 DM. (Rs. 389.50)—Special Price in India : Rs. 150/-. Edited by **Dr. M. V. Kirtane**, Tejpal Road, Bombay-400 007.

Contain articles on Neurotology giving the current concepts and up-to-date information on the present states of Neurotology all over the world. The book will be very informative to the post-graduate students (M.S.) and E.N.T. surgeons interested in otological & Oto-neurological work.

**Ear, Nose & Throat diseases by Mohd. Maqbool 2nd Editions.**

This is an excellent book. It will be of great benefit to post-graduate deploma students, as well as the under graduates. It is much desired that the illustrations should improve, so that there is an overall improvement.
