VOLUNTEER ANAESTHETISTS REQUIRED FOR SERVICE IN THE
ISLANDS IN THE COMMONWEALTH TERRITORIES
IN THE WEST INDIES

THE CANADIAN MEDICAL ASSOCIATION CESO Plan of Medical Aid in the Caribbean is just six months old, and a pool of Canadian volunteers has been organized under the administration of Dr. Arthur D. Kelly; it is not adequately supplied with anaesthetists and Dr. Kelly has asked for our help.

Anaesthetists are required for two-month periods to work in local hospitals with no professional fees or remuneration. Economy return air fare, living accommodation, and maintenance will be provided by the CMA-CESO and the local government for the doctor and also his wife if she accompanies him.

A Canadian passport and an International Certificate of Vaccination showing smallpox vaccination and TABT inoculation within three years is required.

For information apply to:
