International Committee for the Prevention of Anesthetic Morbidity and Mortality (ICPAMM)  
June 4, 2000  
Convention Centre, Montréal, Québec

This is the ninth meeting of the International Conference on Prevention of Anesthetic Morbidity and Mortality (ICPAMM), held every other year at either the World Congress or the European Congress. The meetings have provided a forum for an accounting of the immense progress made since the first session in Boston (1984). Out of that meeting came the Anesthesia Patient Safety Foundation (APSF). At the session in Frankfurt (1998), there began the effort to establish an international foundation. Consideration of this will continue in Montréal.
