

ERRATUM

“THE USE OF BUPIVACAINE IN LABOUR”

R. E. BROWN, M.D., F.F.A.R.C.S. AND D. V. CATTON, M.D., F.R.C.P.(C)

Volume 18, pages 22–32 (January 1971)

The third paragraph page 28 should read—

The increased period of analgesia during the post-partum period probably represents the overwhelming relief of the mother in having got the labour over, so that she relaxes and does not readily complain.
