

# ON ELEMENTARY HEAVY PARTICLES WITH ANY INTEGRAL CHARGE: ERRATA

BY H. J. BHABHA, PH.D.

(Vol XI, No. 4, April 1940, Section A, pp. 347-368)

The following misprints have occurred :—

The expression at the bottom of p. 354 should contain  $c^2$  after  $\Delta M$ .

In the formula for  $1/\tau$  on p. 355, line 8 *read*  $g^2$  instead of  $\delta^2$ .

In line 14, p. 356, *delete* " so that  $(\mathbf{p}_f, \mathbf{p}_0) = \cos \theta$ ."

The equation at the top of p. 358 should not be numbered (13).

In equation (17) *read*  $dQ$  instead of  $d\theta$ , and  $g'_2$  instead of  $g'_1$

In line 2, p. 360 *read*  $(M/\mu)^2$  instead of  $(M/m)^2$ .

In line 1, p. 361 *read* (30) instead of (29).

The last word of the subtitle on p. 362 should be " Photons " *not* " Protons ".

In the sentence immediately after (36) on p. 362 *read* " process " instead of " processes ", and "(35) or (36) " instead of " (35) and (36) "

In the last line before (37) *insert* "  $\theta$  " between " direction " and " is ".

In the first term in square brackets of (40) *read*  $c^2 p^2$  instead of  $p^2$  in the numerator and  $(\Delta Mc)^2$  instead of  $(\Delta M)^2$  in the denominator.

In (44) *read*  $e^4$  instead of  $c^4$ .

Equation (46) should read

$$a_l = \int_{\epsilon_0}^{\epsilon} \frac{d\epsilon'}{\log \epsilon'} = \overline{Ei}(\log_e \epsilon) - \overline{Ei}(\log_e \epsilon_0).$$

In line 5, p. 366 *read* " quarter " instead of " half ".

In line 16, of the *Summary* on p. 367 *read*  $10^{-25}$  cm.<sup>2</sup> instead of  $10^{-27}$  cm.<sup>2</sup>

In line 3, p. 368 *read* " track " instead of " tract ".
