A CORRECTION

With reference to an article entitled "Three Undescribed Genera and Species of Encyrtidae Parasitic in Coccids" published in the *Proc. Ind. Acad. Sci.*, Vol. LXIII, Sec. B, February 1966, the Author has learnt from Prof. O. Peck that one of the generic names used by him, viz., *Paraleurocerus*, is preoccupied by *Paraleurocerus* Girault (*Jl. N.Y.ent. Soc.*, **23**: 172, 1915) with *Paraleurocerus bicoloripes* Girault, as the type species. A new name (generic) '*Praleurocerus*' has been selected for the replacement of the first one and the help received from Prof. Peck is much appreciated.

MAN MOHAN AGARWAL.
