

The Society for Computer Applications in Radiology

I LOOK FORWARD to seeing you in Chicago at the Society for Computer Applications in Radiology (SCAR) Annual Meeting in the Adams Room at the Palmer House on Wednesday, November 30, at 6 PM. The meeting agenda will include discussion of projects and Task Force activities, the election of officers, and other business. Light refreshments will be served.

SCAR's participation in the InfoRad demonstration at the Annual Meeting of the Radiological Society of North America will be significant again this year. As usual, SCAR members are devoting many hours to help assure the success of this demonstration project.

As we look over the past year, we will reflect on a number of highlights. Our biennial Symposium for Computer Assisted Radiology, S/CAR 94, was very successful. This past June in Winston-Salem, NC, more than 400 attendees saw and heard a great many things about what is new and useful in computer applications in medical imaging. The Teleradiology Task Force has worked diligently, and the new teleradiology booklet is now available to all members.

SCAR is making advances in electronic communication on its home front as well. We will be establishing a World Wide Web address on

Internet so that members can have a chance to exchange information of interest to SCAR quickly and easily. The new Internet address will be www.scar.washington.edu. The new system can be seen in the reduced instruction set computers (RISC)/SCAR booth in InfoRad.

Meetings to keep on your calendar include "Medical Imaging 1995," which is the annual event sponsored by the International Society for Optical Engineers (SPIE). It will be held February 26 to March 2, 1995, at the San Diego Marriott Hotel and Marina. Call SPIE at (206) 676-3290 or Internet at spic@mom.spie.org. Soon after SPIE, our attention will turn to the biennial Computer Assisted Radiology (CAR 95) meeting in Berlin, Germany, June 21 to 24. We expect to participate in celebrating the 100th anniversary of Roentgen's discovery. For more information, contact the organizer, Professor Heinz U. Lemke, of the Technical University of Berlin. His fax number is 011-49-30-31-42-11-03.

Ray Kilcoyne, MD

Chairman, SCAR

University of Colorado Health Sciences Center

School of Medicine

Division of Diagnostic Radiology

Denver, CO 80262

I want to join SCAR!

Name: _____ Business Address: _____
Title: _____
Department: _____
Institution/Company: _____ Phone: _____
Fax: _____

Membership category

- Individual USA/Canada \$125
- All other countries \$155
- Student/Resident \$50
(Please provide letter from director.)
- Industrial sponsor \$1,250

Please include payment in US dollars or charge by credit card.

Card No.: _____

Exp. Date ____ / ____ VISA MasterCard

Signature: _____

Mail to SCAR, 4750 Lindle Rd, PO Box 8800, Harrisburg, PA 17105-8800
