

LISELOTT DIEM:

Sport and Physical Education on the Elementary and Primary School Level

Today's contributions to physical education are not easy to survey and partly ignore school reality and the teachers' everyday problems. In addition to this one can see that old ideas often turn up again in new scientific terms. The author describes here a realistic conception of sport on the elementary and primary school level. It is based on three aims: 1. The pupil must learn to understand the functions of his body with regard to movement and he must learn how to apply physical training principles for his own benefits. 2. The pupil must learn systematically the motor skills and sport techniques. 3. The pupil must learn how to apply the acquired skills in various situations.

Tagungen und Kongresse

- 22.—24. 5. 1977 4. Internationales Motorik-Symposium. Motorische Entwicklung, Probleme und Ergebnisse von Längsschnittuntersuchungen.
Darmstadt
Kontaktadresse: Institut für Sportwissenschaft, Technische Hochschule Darmstadt, D-6100 Darmstadt
31. 5.—4. 6. 1977 VI. Internationaler Kongreß für Sportinformation, Duisburg-Wedau
Kontaktadresse: S. Lachenicht, Bundesinstitut für Sportwissenschaft, Hertzstraße 1, D-5000 Köln 40
- 5.—10. 6. 1977 IVth International Congress on Swimming Medicine, Stockholm
Kontaktadresse: Svenska Swimförbundet, Box 6506, S-11383 Stockholm, Sweden
- 26.—30. 6. 1977 International Physical Education and Sports Congress (AIESEP, FIEP). The formation of physical education and sports technical staff. Madrid
Kontaktadresse: Instituto Nacional de Educación Física y Deportes. Martín Fierro, s/n. Madrid—3 (España)
- 11.—14. 7. 1977 VIth International Congress of Biomechanics, Copenhagen
Kontaktadresse: August Krogh Institute, Universitetsparken 13, DK-2100 Copenhagen, Denmark
- 18.—23. 7. 1977 ICHPER International Congress.
Physical and socio-psychological characteristics of students and teachers in the field of physical education.
Mexico City, Mexiko
