ERRATUM TO: [JHEP05\(2016\)144](#)

ARXIV EPRINT: [1602.04821](#)

The various RPV coefficients of the six-quark operators for the non-EW cases need to be re-scaled by a factor 1/2 for consistency:

$$\lambda''_{\text{old}} = \frac{1}{2} \lambda''_{\text{new}}$$

This affects equations (4.2), (4.3), (4.4), (5.2), (5.4), (5.6), (5.7), (5.8), (6.3), and figures 4, 9, 10, 11, 12. The qualitative changes in the exclusion bounds are mild.

We thank Dr. Chang Sub Shin for pointing out this mismatch.
