

Erratum: Combined analysis of Belle and Belle II data to determine the CKM angle ϕ_3 using $B^+ \rightarrow D(K_S^0 h^+ h^-) h^+$ decays

The Belle and Belle II collaborations

E-mail: niharikarout@physics.iitm.ac.in, coll-publications@belle2.org

ERRATUM TO: [JHEP02\(2022\)063](#)

ARXIV EPRINT: [2110.12125](#)

Page 20, footnote: Of the methods available in GAMMACOMBO, we used the profile likelihood method, also known as the PROB method. With the PLUGIN method, which uses pseudo-experiments and the best fit values of the nuisance parameters, the central values of our results do not change, and the change in the uncertainty is of the order of the total experimental systematic uncertainty.
