In this article the very last equation has been corrected to display brackets instead of question marks. It now shows as displayed below. The original article has been corrected.

$$V_{sc} = \left[\left(\frac{1}{2} \times 12 \right) \times \left(\frac{1}{2} \times 12 \right) \times 3 + 4^2 \right] \times 4 \times \frac{11}{21} = 259 + \frac{2}{3} + \frac{1}{7}$$
