Correction to: *Insectes Sociaux* (2020) 67:317–326
<https://doi.org/10.1007/s00040-020-00755-8>

The authors wish to correct an error that appeared in their article

Mutagenesis mediated by CRISPR/Cas9 in the red imported fire ant, *Solenopsis invicta*. *Insectes Sociaux* volume 67, pages 317–326 (2020)

The following sentence in the Methods section contains incorrect units:

"For most injection batches we used 30 ng/μl of sgRNA and 300 μg/μl of Cas9 protein; for a few injection batches we used less (15 ng/μl and 150 μg/μl, respectively)."

The sentence should read:

For most injection batches we used 30 ng/μl of sgRNA and 300 ng/μl of Cas9 protein; for a few injection batches we used less (15 ng/μl and 150 ng/μl, respectively).

The authors thank B. Çolak for bringing this to their attention.
