Correction to: Med Chem Res (2017) 26:3407–3416
<https://doi.org/10.1007/s00044-017-2033-4>

The original version of this article unfortunately contained a mistake. The first sentence under the sub-heading “Cell culture and MTT assay for cell viability” is incorrect. The corrected sentence is given below, “Three human cancer cell

lines namely K562 (Leukemia), WRL68 (hepatic) and MCF-7 (breast) obtained from National Centre for Cell Science (NCCS), Pune, India were cultured and maintained at CSIR-CIMAP, Lucknow. The cell lines were cultured in DMEM/Ham’s F-12 medium containing 10% heat-inactivated FBS, 5 mg/mL of penicillin, 10 mg/mL of neomycin, and 5 mg/mL streptomycin.”

The original article can be found online at <https://doi.org/10.1007/s00044-017-2033-4>.
