RETRACTED ARTICLE: Direct transfer of STEMI patients to cardiac catheterization laboratory

Prognostic relevance for in-hospital mortality

Electronic supplementary material

The online version of this article (<https://doi.org/10.1007/s00059-017-4673-z>) contains supplementary material, which is available to authorized users.

The Editors have retracted this article because irregularities in patient numbers were identified in the paper, and therefore the conclusions may be misleading. All authors agree to this retraction. The online version of this article contains the full text of the retracted article as electronic supplementary material.
