It has been brought to our attention as authors that the right panel in Fig. 3a, showing the immunofluorescence staining for Chi decoy ODN after 7 days, was published incorrectly. Specifically, it was mistakenly duplicated from Fig. 6b. The right panel in Fig. 3a has been replaced with the true immunofluorescence image and the corrected Fig. 3 is given below. The authors claim that this correction does not influence the conclusion of the study and would like to apologize for this error.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s00109-012-0972-2>.
