The authors wish to retract this article owing to inadvertent overlap with an earlier, broader study (Jablonski KA, McAteer JB, de Bakker PI et al [2010] Common variants in 40 genes assessed for diabetes incidence and response to metformin and lifestyle intervention in the diabetes prevention program. *Diabetes* 59:2672–2681).

The data presented in Tables 1 and 2 of this article had previously been published in the supplementary tables of Jablonski et al.

This retraction is intended to maintain the integrity and originality of material published in *Diabetologia* and the journal acknowledges the full cooperation of the authors.
