## Correction to: Diabetologia

<https://doi.org/10.1007/s00125-020-05300-7>

The graphical abstract (available at <https://doi.org/10.1007/s00125-020-05300-7>) included a typographical error (1000 g *n*-3 fatty acid supplementation, rather than 1000 mg). This has now been corrected.
