Correction to:

Social Psychiatry and Psychiatric Epidemiology

<https://doi.org/10.1007/s00127-021-02051-7>

In the “Author contributions” section, the lived experience researchers who contributed to data collection and analysis but were not paper authors were identified only by initials in error, rather than named. The final paragraph of the author contributions section should read as follows:

The NIHR Mental Health Policy Research Unit Covid coproduction research group comprises the authors of this

paper and: Katie Anderson, Nick Barber, Anjie Chhappia, Beverley Chipp, Tamar Jeynes, TK, Jo Lomani, Karen Machin and Kati Turner. KA, NB, AC, BC, TJ, TK, JL and KM contributed to study data collection and/or analysis. BC and TK wrote the Lived Experience Commentary which accompanies this paper. AC, TJ and KT, together with study author JH, facilitated regular meetings of a reflective space for study Lived Experience Researchers during the project.

The original article has been corrected.
