Correction to:

Bulletin of Environmental Contamination and Toxicology

<https://doi.org/10.1007/s00128-002-0152-0>

In the original version of this article, there is a typographical error in the third sentence of the Results and Discussion section. The number of cases in which anticoagulant-facilitated hemorrhage was considered the cause of death was 19 (not 9). This has been corrected with this erratum.

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
