**Erratum to: Intensive Care Med (2008) 34:2264–2267  
DOI 10.1007/s00134-008-1263-9**

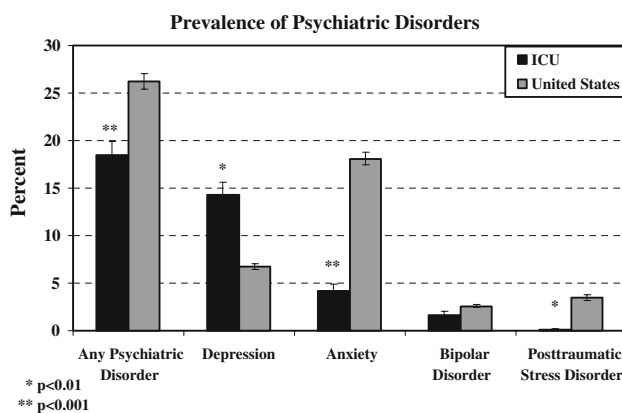

The legends to Figs. 1 and 2 were unfortunately transposed.

The figures are correct.

The corrected figures are given here.

**Fig. 1** The prevalence of substance dependence and psychiatric disorders in critically ill patients (*black bars*) compared to Utah population data (*gray bars*). Significant differences are denoted with \* for  $p$  values of  $<0.01$  and \*\* for  $p$  values of  $<0.001$ . Error bars denote the 95% confidence intervals for the percentages (proportions)

**Fig. 2** The prevalence of psychiatric disorders by disorder in critically ill patients (*black bars*) compared to United States population data (*gray bars*). Significant differences are denoted with \* for  $p$  values of  $<0.01$  and \*\* for  $p$  values of  $<0.001$ . Error bars denote the standard error of the percentages (proportions)
