### Erratum to: Intensive Care Med DOI [10.1007/s00134-009-1567-4](https://doi.org/10.1007/s00134-009-1567-4)

In the abstract and the first sentence of the results the article reports that 167 ICUs from 37 countries across 5 continents participated in the study. The number of ICUs and continents were reported correctly, but these came from 21 rather than 37 countries.

The authors apologize for this error.
