Correction to: Intensive Care Med (2020)

46:2035–2047

<https://doi.org/10.1007/s00134-020-06267-0>

The original version of this article unfortunately contained a mistake. There was an error in figure 3. In addition, there was also an error in the text. The correct sentence should be: Most deaths (88.7%) and critical care unit discharges (79.6%) occurred before day 30 **and most acute hospital discharges (90.2%) occurred before day 60** (Fig. 3). The correct figure can be found below. The authors apologize for the mistake. The original article has been corrected.
