## Correction: Intensive Care Med

<https://doi.org/10.1007/s00134-024-07375-x>

When this article was published the Fig. 1 was presented in a redrawn version and the footnote was inadvertently deleted during the process.

Two notes to Fig. 1 should have been given:

\*16/49 patients (32.6%) were already on antimicrobial therapy at the time of BAL acquisition

\*\* therapeutic choices based on BAL<sub>CX</sub> considered decisions guided by BAL<sub>FAPP</sub> as baseline

The original article has been updated. The Editorial Office apologizes for the mistake.
