There are typos in our publication (https://doi.org/10.1007/s00158-010-0602-y) regarding the minimal length scale in the intermediate design.

The labels of the longitudinal axis in Figs. 12, 20 and 21 were mistyped. The corrected ones are b/R, b_s/R and b_v/R respectively.

On page 780, all the ratios $b/2R$ should be b/R. In addition, $b = 0.092L$ should be corrected to $b = 0.046L$.

The original article can be found online at https://doi.org/10.1007/s00158-010-0602-y.
