<https://doi.org/10.1007/s00170-013-5121-8>

The authors regret to inform that an incorrect information about Fe powder (2 Experimental procedure) was included in the published paper. The correct description about the powder is shown as follows:

Fe powder, with an average particle size (D50) of 20 µm produced by Hogan Company (MH300), and Al powder with an average particle size (D50) of 40 µm produced by IRTES-LERMPS (UTBM, France), were used as feedstock.

Author would like to apologize for the inconvenience caused.

The online version of the original article can be found at <https://doi.org/10.1007/s00170-013-5121-8>
