The Editor in Chief has retracted this article at the request of the corresponding author, Baoyan Wang. The authors found substantial errors which affect the results and conclusions of the study. Specifically, there has been an error in the results presented in Table 3 and 4. This affects figs. 4-13 which are now incorrect. Further more, the values presented for 'manufacturing process reliability' have been miscalculated.

Baoyan Wang, Xingang Wang, Xiaoming Chen and Yimin Zhang agree to this retraction. Chunmei Lv did not respond to any correspondence from the editor or publisher about this retraction.

Publisher's note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
