Correction to:
Journal of Geodesy
<https://doi.org/10.1007/s00190-018-1202-7>

In Appendix A of the original article, the units used to compare the relative uncertainty from Eq. (11) to the square root of the sum of squares of the error estimates of point 1 and point 2 were incorrectly written as mm. This is incorrect. The

units should have been written in cm. Therefore, the correct information reads as follows:

The relative uncertainty in the AHD height difference of two points is smaller than the square root of the sum of squares of the error estimates of point 1 and point 2 (10.2 cm vs. 14.1 cm).

All other results are unaffected by this error in units.

The original article can be found online at <https://doi.org/10.1007/s00190-018-1202-7>.
