Erratum to: Economic Theory DOI 10.1007/s00199-008-0344-x

The original version of this article unfortunately contained a mistake. The presentation of Fig. 5 was incorrect. The corrected figure is given below.

Fig. 5 Effect of the number of laggard firms on the innovator's equilibrium output. The *left panel* illustrates the case where $e = 1$ and $d = \frac{1}{4}$. The *right panel* illustrates the case where $e = 1$ and $d = \frac{17}{24}$
