The production team omitted the content of footnote 17 by mistake in the original publication of the article. Footnote 17 should read as given below:

Here I slightly abuse the notation. Let $\mathcal{B}_M$ denote the Borel algebra of M . Given $\omega \in [0, t]$, $\pi^s(m|\omega; t)$ is a Dirac measure, $\delta_\omega(B_M) : \mathcal{B}_M \rightarrow [0, 1]$, that assigns 1 if $\omega \in B_M \in \mathcal{B}_M$ and 0 otherwise.

The original article has been corrected.
