Arch Toxicol (2005) 79:177–182

In the article mentioned above, the scales of the relative mRNA levels in figure 2 and figure 3 are incorrect.

The relative level of IL-6 stated in figure 2 should be multiplied by 10^{-9} and the relative level of TNF stated in figure 3 should be multiplied by 10^{-7} .

The online version of the original article can be found at <http://dx.doi.org/10.1007/s00204-004-0613-9>
