Erratum to: Arch Toxicol DOI 10.1007/s00204-016-1663-5

Unfortunately, in lines 12 and 16 of the abstract section, the chemical compound names of the major phase II metabolites of daidzein and genistein were incorrectly published as 7-sulfo-4'-glucuronides. The correct names are 4'-sulfo-7-glucuronides.

The online version of the original article can be found under doi:[10.1007/s00204-016-1663-5](https://doi.org/10.1007/s00204-016-1663-5).
