**Erratum to: Naunyn-Schmiedeberg's Arch Pharmacol**  
**DOI 10.1007/s00210-009-0472-2**

The authors regret that the Figure 6 containing representative western blots is not of sufficient quality and should be replaced. In the final steps of figure preparation the graphics technician made an incorrect insertion of blots into figure 6, which probably resulted from relatively low resolution of images.

In order to meet high standard of Naunyn-Schmiedeberg's Archives of Pharmacology and to improve clarity of data presentation we wish to perform a *corrigendum* of figure 6, which would only affect graphical representation of WB bands and not scientific merit.

The authors would like to apologise for any inconvenience caused.
