The Editor-in-Chief has retracted this article. Concerns were raised regarding a number of figures, specifically:

- Figure 5a: the Bcl-xL band appears to be identical with the Cyclin D1 band of Figure 4c in [1]
- Figure 6d: the Control/PCNA panel appears to overlap with the Control/PCNA panel of Figure 6d in [1]

In addition, the authors have not been able to provide to provide document that ethical approval was obtain prior to commencing this study. The Editor-in-Chief therefore no longer has confidence in the reliability of the data reported in the article. All authors agree to this retraction.
