The Editor-in-Chief has retracted this article. After publication, concerns were raised regarding high similarity between Fig. 1 24h Cis and Fig. 2 24h 5-FU images. The authors have provided a corrected version of the figure, but have been unable to share the underlying raw data for validation upon request. The Editor-in-Chief therefore no longer has confidence in the presented data.

Fardous F. El-Senduny agrees to this retraction. Nabil Mohie Abdel-Hamid and Nadia A. ElNakeeb have not explicitly stated whether they agree to this retraction.

**Publisher's Note** Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
