Exp Brain Res (2005). DOI: 10.1007/s00221-005-0239-z

Unfortunately, the following data are not published correct:

1. In the Keywords the word “zInterception” should read Interception.
2. In Table 1, first column, the units for Time to contact (TTC), Acceleration time (TA), Deceleration time (TD) should be (ms) not (m/s).
3. In Table 1, first column, there should be no closed bracket behind “Total movement”.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s00221-005-0239-z>
