Correction to: Theory of Computing Systems

<https://doi.org/10.1007/s00224-022-10092-x>

The author found out that in the beginning of section 3 and just above Question 2, half of that sentence was lost in the production process.

The last sentence above Question 2 should be completed as:

2. For every rooted tree T with $V(T) = X$, every positive integer k , and all nonnegative reals c and d satisfying $\mu(X) \geq d + (k - 1)c$, (H_T, μ) is either (d, k) -fat or $(c, 1)$ -tall or both.

The original article has been corrected.
