Our journal has a new extended Editorial Board. All Board members are Fellows of the Academy of Wood Science. This will ensure both the excellent quality of the peer-review-system and the close connection of the journal with the Academy.

Sincere thanks are due to all leaving Board members who worked for a long period to the best of our journal.

A warm welcome is given to our new Board members who agreed with pleasure to serve our journal to the benefit of our science and our scientific community.

Gerd Wegener
Editor-in-chief

John Barnett
Co-editor
