

EUROPEAN SOCIETY OF NEURORADIOLOGY

DIAGNOSTIC AND INTERVENTIONAL

ANNOUNCEMENT OF FELLOWSHIP

The ESNR Neuroradiology Diagnostic Committee is delighted to announce that, with support of the ESNR Executive Committee, we can offer a

12 months Research Fellowship in Diagnostic Neuroradiology.

Purpose of this fellowship is to stimulate cross-border research exchange in Neuroradiology within Europe.

The fellowship amounts to **€25.000**, intended to cover costs for living during the fellowship. Host institutions are expected to cover all potential other costs related to carrying out the research project.

Eligible are ESNR junior or full **members up to the age of 40 years**, who have been residing in Europe at the time of application for the past 24 months (with respect to membership see also ESNR regulations 7.12.2014).

Candidates will be selected based on their potential for scientific development, including the capacity to carry out the proposed research project, the quality of the research project, and the appropriateness of the host institution for the proposed project.

A minimum of 1 (submitted) **manuscript** is expected to result from the Fellowship.

Applications can be submitted until **October 20th, 2017** and should include:

1. **Curriculum vitae** of the applicant, including information on previous publications and awards.
2. **Letter of invitation by the host institution**, including mention of the intended supervisor for the project.
3. A detailed **research proposal**, including background, methods and work plan and expected deliverables at the end of the Fellowship. Maximum of 5 A4 pages, including references, at minimum font size 11.

Selection will be performed by the ESNR Neuroradiology Diagnostic Committee and announced by December 20th 2017.

When awarded, the Fellowship is to commence within 6 months of announcement.

Applications to be sent to: info@esnr.org
