The editors and the publisher gratefully acknowledge the excellent work provided by our reviewers over the past year. The quality of the journal is definitely dependent upon the review process. The work performed by our reviewers is essential for the increasing interest of our journal within the plastic surgery arena in Europe and

elsewhere. Their efforts are especially appreciated during these disruptive times caused by the COVID-19 pandemic. We have a common interest in making the European Journal of Plastic Surgery an even better one as well as a leading plastic surgery journal. We wish you a safe and healthy 2022!
