Male-Driven Evolution in Closely Related Species of the Mouse Genus *Mus*

Sara A. Sandstedt,* Priscilla K. Tucker

Department of Ecology and Evolutionary Biology and Museum of Zoology, University of Michigan, Ann Arbor, MI 48109, USA

RE: *J Mol Evol* (2006) 61:138–144 — A typographical error appeared in the text of this article. On p. 140, midway down the left-hand column, where it reads:

and variance of X is $V(X) = Y (1 - X) / [L (1 - 4X / 3)^2]$ with L equal to the length of the sequence.

it should instead read:

and variance of X is $V(X) = X (1 - X) / [L (1 - 4X / 3)^2]$ with L equal to the length of the sequence.

In other words, in the published version the symbol Y should have appeared as an X.

**Present address:* Department of Epidemiology, University of Michigan, Ann Arbor, MI 48109.
