DOI 10.1007/s00244-015-0235-7**

The original publication incorrectly states that manganese superoxide dismutase-2 (*sod2*) was measured during the experiment. Copper/zinc superoxide dismutase-1 (*sod1*) was actually measured using the following primers for *sod1* (GeneBank ID Y12236): forward primer 5'-CTA GCC CGC TGA CAT TAC ATC-3', reverse primer 5'-TTG CCC ACA TAG AAA TGC AC-3'. The primer sequences listed in Table 1 for *sod2* are incorrect.
