Retraction Note to: *Pediat. Radiol.* 3, 230–234 (1975)
<https://doi.org/10.1007/BF00975409>

The Editors have retracted this article [1] as it is not clear whether parental consent was provided for publication of the images and case. Given the age of the article we have been unable to verify this, therefore the article is no longer available online in order to protect the privacy of the individual. Both authors agree to this retraction.
