After publication of the original article, authors found that there has been a minor mistake in the units of **kcat** and **kcat/Km** in Table 2. The units should be $10^3 \text{ min}^{-1} \text{ g}^{-1}$ FAE for kcat and $\text{mM}^{-1} \text{ min}^{-1} \text{ g}^{-1}$ FAE for kcat/Km. This correction does not affect any conclusions drawn within the article.
