The published article contained some errors:

- The co-author Josee Zijlstra was mistakenly listed as a member of the Department of Nuclear Medicine & PET Research at VU University Medical Center; in fact, she is from the Department of Hematology at that institution.
- In the affiliation of the co-authors Wim J. G. Oyen and Eric P. Visser, the name of the university, Radboud, was misspelled.
- The co-authors Antoon T. Willemsen, Anne M. Paans and Jan Pruim should all have been listed at the same affiliation, as they are here.
- In the 47th line of the section headed “A brief summary of factors affecting SUV”, “and/or” should have been erased.
- Finally, in the 6th line of the section headed “FDG dosage in relation to scanner type, patient weight and time per bed position”, “(referentie?)” should have been erased.
