The original version of this article unfortunately contained a mistake. The factor in the denominator of the third equation is missing.

Please see the correct equation below.

$$\hat{k}_p = \frac{\hat{\lambda}_f}{\hat{\lambda}_p} = \sqrt{\frac{(\sum_i k_i)(\sum_i l_i)(\sum_i \pi x_i^2)}{n^2 (\frac{1}{2} \sum_i \pi y_i^2)}}$$
