Correction to: Behavioral Ecology and Sociobiology.

<https://doi.org/10.1007/s00265-020-02960-8>

Due to a mistake during the proofing process the range values were erroneously removed from the sentence “Remarkably, 66.7% of bachelor males (10 of 15 males) were associated with multiple primary males (average number of units 2.53 ± 1.36 SD; median = 3.00)” on page 8.

This sentence should instead read “Remarkably, 66.7% of bachelor males (10 of 15 males) were associated with multiple primary males (average number of units 2.53 ± 1.36 SD; range = 1 to 5; median = 3.00)”.
