I would like to express my deepest gratitude on behalf of the APS editorial staff, Springer Science and Business Media, and International Society of Aesthetic Plastic Surgery (ISAPS), to all the reviewers who have given their valuable time and expertise to this publication, tirelessly and without compensation. Unquestionably, this publication would not enjoy its continued growth and success without the reviewers named in the following list. I look forward to your participation in the revolution of the journal and wish everyone good health and prosperity in the new year.
